

STUDENT SELF-STUDY OPTIONS

Students can review data results from their completed teacher assignment then self-generate **Practice Assignments** to address identified weaknesses, or students can do their own assignment creation using **Self-Study**, then analyze the data and practice identified weaknesses.

CREATING A PRACTICE ASSIGNMENT FROM A COMPLETED TEACHER ASSIGNMENT

When a student has completed a teacher assignment, the teacher can change the mode to Review Only for the students to view the results. This allows the student to view the report and look at the data. If students feel they need more practice, they can select a check box by the topics or standards that appear to need more work and then generate another practice assignment.

Teacher Assignment – Student Review of Assignment Data

1. From Student Center, click on **Reports**
2. Under the section **Assignments from your teacher** click on **Completed Assignments**
3. You will be able to view the assignment results if the teacher has allowed access
4. Click on the assignment you wish to review
5. Scroll down to review each question and any comments the teacher has made from a constructed response
 - a. Green – correct
 - b. Yellow – correct on retry (only on open mode assignments)
 - c. Red – wrong (open mode wrong twice or quiz mode wrong only try)
6. Click on the question number to view the question and teacher feedback for CR
7. Use **Next** to advance to next question or **X** (upper left of window) to close and select a different question

Start Practice Assignment

10. This will give you a practice assignment with multiple questions around 5 per check box. You will have two tries to answer the question correctly before moving to the next question. Make sure you use the Hint and Vocab to help you if you get it wrong on the first try.

NOTE: If you don't finish the Practice Assignment you can go back to Incomplete Assignments, click on Practice Assignments and you will be shown all your practice assignments.

11. You can review results from any Practice Assignment by going to Reports, click on Completed Assignments, click on the original assignment then scroll down to the bottom under Practice Assignments.

12. Click on the Practice Assignment which is labeled with the original assignment name and number of practices (Practice #).

CREATING A STUDENT GENERATED SELF-STUDY ASSIGNMENT

Students can practice course content by creating their own Self-Study assignments. See the chart below how to create a Self-Study.

1. **Rocket Mode** – a quick and easy way to grab around 10 questions to review.
2. **Expert Mode** – is great for HS courses to identify a specific HS course.

NOTE: You will have two tries to answer the question correctly before moving to the next question. Make sure you use the Hint and Vocab to help you if you get it wrong on the first try. The exception is the Math Skills section in Rocket Mode. You will be told you are right or wrong and the right answer only.

<p>Rocket Mode (by Grade/Topic)</p> <ul style="list-style-type: none"> • Click on Self Study • Choose Course • Choose Grade • Click on + next to the Topic • Choose Subtopic to start the assignment <p>NOTE: Math has an additional Math Skills area at the top to focus just on a specific skill</p>	<p>Expert Mode</p> <ul style="list-style-type: none"> • Click on Self Study • Change Rocket Mode to Expert Mode • Choose your content • Choose Topics • Upper right, select the specific HS course you are taking • Click on Levels and set to HS only then click X in upper left of box to close levels • FIRST use + to open a topic and if needed more topics till you find the check box of the sub-topic you want to practice • Scroll down, set the number of questions, name the assignment if you like, then click on OK
